

August 5, 2015

Dear Charter Parents and Friends;

Thanks to all who helped move playground equipment and paint last week, your efforts are truly appreciated. Several of you said you would be willing to do more, so...

We have scheduled another work night for next **Monday, August 10 at 6 pm**. Here are the projects that need help:

Outside:

10 yards of mulch are being delivered Monday, we need help spreading it on the front and back playgrounds. We have 2 wheelbarrows, if you have one please bring it with you.

One of our drain pipes that goes underground from the building to the street has collapsed, we need to dig it up to see where the problem is. Again, we have only one shovel so bring one if you want to dig.

Inside: Painting went so well last week that we have identified 4 rooms that need painting, we have plenty of brushes, rollers and drop cloths for this.

If you are able to help, Please call Mina in the Office by 10 am Monday so we can plan properly. All are welcome.

Chuck Miller,
Building Staff
